Classroom Teaching

B.A. B.Ed. Teaching, Date :15/12/2022

Classroom teaching at **Maa Rewati College of Education** is highly student-centered and aims at the holistic development of students. Teachers focus on not only delivering the curriculum but also enhancing the overall learning experience by combining modern techniques with traditional methods.

Key Features:

1. InteractiveTeaching:

Classes are designed to be interactive, with active participation from both teachers and students through discussions and Q&A sessions. This helps students clarify their doubts and develop a deeper understanding of the subjects.

B.Ed. Teaching, Date : 18/11/2022, 17/08/2023

Due to smaller class sizes, each student receives personalized attention. Teachers closely monitor student progress and provide tailored support based on individual needs.

2. Mentoring

To ensure effective mentoring and personal guidance for students, **Maa Rewati College of Education** follows a structured mentoring schedule. The time table for mentoring sessions is designed to accommodate both students and faculty, ensuring personalized attention and support. Below is a suggested template for preparing a mentoring time table:

- Each student will be assigned a faculty mentor based on their department or academic focus.
- Mentors will oversee a manageable group of students to ensure individualized attention.

3. Time Table Preparation

4. Student Counselling

Student counselling at **Maa Rewati College of Education** is a vital component of the institution's commitment to holistic student development. The counseling services are designed to offer guidance, support, and assistance to students as they navigate academic, personal, and social challenges. **Maa Rewati College of Education** aims to foster a supportive environment where students can thrive academically, emotionally, and socially, ensuring they become well-rounded individuals ready to contribute positively to society.

5. PTA Meeting

At **Maa Rewati College of Education**, the PTA (Parent-Teacher Association) meetings are an essential platform for fostering communication and collaboration between parents, teachers, and the college administration. These meetings provide an opportunity for parents to stay informed about their child's academic progress, extracurricular activities, and overall development.

6. Assessment of student learning- home assignments & Test

At **Maa Rewati College of Education**, assessing student learning through home assignments and tests is a critical part of the academic process. These assessments help monitor student progress, reinforce learning, and identify areas that require further attention. Here's how home assignments and tests are utilized for assessment:

1. **Home Assignments:**

- **Purpose:** Home assignments are given to reinforce the concepts learned in class, encourage independent study, and develop critical thinking skills.
- **Content:** Assignments may include research projects, essays, problem-solving tasks, or case studies related to course topics.
- **Evaluation:** Assignments are reviewed by teachers for accuracy, understanding, and originality. Constructive feedback is provided to help students improve.
- **Regularity:** Assignments are given on a regular basis to ensure continuous learning outside the classroom.

2. **Tests:**

- **Purpose:** Tests are conducted to measure students' comprehension of the material, their retention, and their ability to apply concepts.

7. Organising academic and Cultural

At **Maa Rewati College of Education** student, both academic and cultural activities are organized to promote holistic development among students. These activities are designed to enhance their intellectual growth, creativity, and social skills.
