Metric 4.2.1

Institution has adopted automation of library using Integrated Library Management System (ILMS) or any other software

Describe the features of Library Automation in not more than 500 words :-

Library Automation

Response:

The library working is computerized; Software is being used for issuing books and maintaining record. The keywords used for the effective retrieval of books in the library are mention according to author, title and publisher. The library has four distinct sections. These are acquisition, cataloguing, circulation and serial control. The college library has computer and internet facilities. Details on the access to the staff and d students and the frequency of use are as follows:

Access to the staff: Teachers and students use computer and internet to access various kind of information regarding teaching subjects, teaching-learning process, teaching strategies, teaching techniques, various kinds of innovations in the field of classroom interactions, teaching aids, effective use of audio visual teaching aids, role of electronic media in education, recent researches related to educational developments and educational complexities etc, Teaching staff compare the educational developments of other countries with their educational practices of indigenous system.

Frequency of use: The library is used almost on each working day.

1. By teaching staff: on as and when required basis

1. By students: on as and when required basis

Computer and internet services are used by staff and the students alike
