Metric 7.1.5

Institution is committed to maintenance of cleanliness , sanitation , green cover and providing a pollution free healthy environment

Maa Rewati College of Education is a beacon of academic excellence and social responsibility, deeply committed to fostering an environment that prioritizes cleanliness, sanitation, green cover, and a pollution-free, healthy atmosphere. The institution recognizes that a clean and green environment is not just a physical necessity but also a cornerstone of the holistic development of students and staff. This commitment is reflected in every aspect of the college's operations, from its infrastructure to its daily activities and long-term initiatives.

Commitment to Cleanliness and Sanitation At Maa Rewati College of Education, cleanliness is more than just a routine—it is a culture. The college has implemented a comprehensive sanitation plan that ensures the campus remains spotless at all times. Regular cleaning schedules are meticulously followed, with dedicated staff ensuring that classrooms, laboratories, libraries, and common areas are kept in pristine condition. The institution also emphasizes

the importance of personal hygiene among students and staff, conducting awareness programs that highlight the benefits of maintaining cleanliness for overall well-being.

Sanitation facilities at the college are state-of-the-art, with modern restrooms equipped with necessary amenities to promote hygiene. The institution also practices proper waste management by segregating waste at the source and ensuring its safe disposal. Recycling initiatives are encouraged, and the college has partnered with local waste management authorities to ensure that the campus remains free from waste-related pollution.

Greening the Campus Maa Rewati College of Education is deeply invested in maintaining and enhancing the green cover of its campus. The institution believes that a green environment not only contributes to physical health but also nurtures mental well-being and academic excellence. To this end, the college has planted numerous trees and shrubs, creating lush green spaces where students and staff can relax and rejuvenate. These green areas also serve as outdoor classrooms, where students can engage in learning amidst nature.

The college's green initiative goes beyond just planting trees. It includes maintaining gardens, landscaping, and creating eco-friendly spaces that encourage biodiversity. The institution regularly organizes tree-planting drives and involves students in maintaining the campus greenery, instilling in them a sense of responsibility towards the environment. Furthermore, the college uses organic

fertilizers and environmentally friendly practices to ensure that the greenery thrives without harming the ecosystem.

Pollution-Free, Healthy Environment A healthy, pollution-free environment is at the core of **Maa Rewati College of Education's** mission. The institution has implemented several measures to minimize pollution and ensure a healthy atmosphere on campus. Vehicular movement within the campus is restricted to reduce air and noise pollution, and the college promotes the use of bicycles and walking as eco-friendly modes of transportation.

The institution also focuses on reducing its carbon footprint by adopting energy-efficient practices. Solar panels have been installed to harness renewable energy, and energy-saving appliances are used throughout the campus. Water conservation is another key focus area, with rainwater harvesting systems in place to sustainably manage water resources.

To ensure the campus remains free from pollution, the college regularly monitors air and water quality, and corrective measures are taken if any issues are detected. Additionally, the institution actively engages in community outreach programs, educating the local community about the importance of maintaining a clean and healthy environment.

In conclusion, **Maa Rewati College of Education** is not just an academic institution but a leader in environmental stewardship. Its unwavering commitment to cleanliness, sanitation, green cover, and a pollution-free environment

ensures that students and staff thrive in a healthy, sustainable atmosphere. By fostering such an environment, the college not only enhances the academic experience but also prepares its students to be responsible citizens who value and protect the world around them.
